## PREFACE

The Technical Education, Vocational and Entrepreneurship Training Authority (TEVETA) is an institution created under the Technical Education, Vocational and Entrepreneurship Training Act Number 13 of 1998, as amended by the Technical Education, Vocational and Entrepreneurship Training (Amendment) Act Number 11 of 2005.

The Act among other things provides that TEVETA shall:

- (a) regulate and conduct national examinations and assessments relating to technical education, vocational and entrepreneurship training;
- (b) charge and collect fees in respect of examinations, assessments and other services provided by the Authority;
- (c) award certificates to persons who succeed in examinations and assessments undertaken under this Act
- (d) do all such things connected with or incidental to the functions of the Authority under this Act.

Through this mandate, the Assessment and Qualifications Division of TEVETA has developed Practical Assessment Tool Kits to enable learners achieve the competences that are congruent with the demand of the workplace tasks. These tool kits in part are also intended to ensure that similar conditions under which all students in TEVET are assessed and examined apply wherever the course is undertaken in Zambia.

The Trainers shall work with the Learners to collect evidence of competence, using the benchmarks provided by the unit standards. During the year, the Learners shall be required to undertake a series of practical assessment tasks. It is the sum of all these assessments tasks that deems a Learner to be competent (or not).

This approach to assessment is not a one-off event but one that gives learners many opportunities to demonstrate skill and allow for the capturing and recording of these demonstrations.

For the Learner to be deemed competent, they must demonstrate competency in every aspect of the practical tasks being undertaken. It must however be understood by the Trainer that Competency does not mean expert. It means that the candidate has attained sufficient skill and knowledge to perform the activity or service to a degree and quality that is acceptable to the industry and the customer in a time within which a competent person at the level could reasonably be expected to perform the task.

While this will be undertaken at institutional level, it is therefore envisaged that the Assessment principles of VALIDITY, RELIABILITY, FAIRENESS and FLEXIBILITY shall at all times be adhered to.

## Pre-Assessment

Assessment process explained to the Trainee (✓ if Yes).	<input type="checkbox"/>
Any appeal relating to the outcome of the assessment or the way in which the assessment was conducted shall be made through the TEVETA <u>fair treatment policy</u> as explained to the Trainee (✓ if Yes).	<input type="checkbox"/>

<b>Learner/Trainee</b>  Learner/Trainee name: (Print)  Learner/Trainee comments:		<b>Assessor/Examiner</b>  Assessor/Examiner name: (Print)  Assessor/Examiner comments:	
I fully understand the assessment and appeals process.		Theory assessment sighted and checked as satisfactory.	<input type="checkbox"/>

## Task 1: SAFETY PROCEDURES

No	Activity	competency					
		Satisfactory			Not Satisfactory		
		Attempts			Attempts		
1.0	During observation of work activities, the candidate demonstrated that they can :	1	2	3	1	2	3
	Observe safety requirements in the workshop. This could include:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/> Handling edged tools <input type="checkbox"/> Storage of tools/materials <input type="checkbox"/> Use of correct tools <input type="checkbox"/> Keeping the environment clean

## TASK 2: SCULPTURE TOOLS

No	Activity	Competency					
		Satisfactory			Not Satisfactory		
		Attempts			Attempts		
2.0	During observation of work activities, the candidate demonstrated that they can:	1	2	3	1	2	3
	Use sculpture tools. This could include:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/> Marking tools <input type="checkbox"/> Drawing instruments <input type="checkbox"/> Cutting tools <input type="checkbox"/> Tacking tools <input type="checkbox"/> Measuring tools <input type="checkbox"/> Fastening tools <input type="checkbox"/> Power driven tools

#### TASK 4: SCULPTURE BASIC SHAPES

	Activity	Competency					
		Satisfactory			Not Satisfactory		
		Attempts			Attempts		
4.0	During observation of work activities, the candidate demonstrated that they can:	1	2	3	1	2	3
	<b>Create a sculpture using wood. This can include:</b> <ul style="list-style-type: none"> <li><input type="checkbox"/> Creating a design</li> <li><input type="checkbox"/> Preparing tools and materials</li> <li><input type="checkbox"/> Crating a sphere</li> <li><input type="checkbox"/> Creating a cube</li> <li><input type="checkbox"/> Creating a cone</li> <li><input type="checkbox"/> Creating a pyramid</li> <li><input type="checkbox"/> Combining all the shapes into an abstract form</li> <li><input type="checkbox"/> Size of the created shapes to determine the final size of the artefact.</li> </ul>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## TASK 5: MODELING (ADDITIVE)

	Activity	Competency					
		Satisfactory			Not Satisfactory		
		Attempts			Attempts		
5.0	During observation of work activities, the candidate demonstrated that they can apply wood to show:	1	2	3	1	2	3
	<b>Create a modelling sculpture using additive method. This could include:</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/> Designing the sculpture <input type="checkbox"/> preparation of the materials and tools <input type="checkbox"/> Creating sculpture using Additive method <input type="checkbox"/> Size not more than 5cm X 10cm x 5cm

## TASK 6: MODELING (SUBTRACTIVE)

	Activity	Competency					
		Satisfactory			Not Satisfactory		
		Attempts			Attempts		
6.0	During observation of work activities, the candidate demonstrated that they can:	1	2	3	1	2	3
	<b>Create a sculpture using modelling by subtractive method. This can include:</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/> Designing the sculpture <input type="checkbox"/> preparation of the materials and tools <input type="checkbox"/> Creating sculpture using Subtractive method <input type="checkbox"/> Size not more than 5cm X 10cm x 5cm
